

TUBO - S

Folded spiral-seam tube former

TECHNICAL DATA

Tube diameter	125 - 1400 mm (5'' to 54'')
Maximum tube length (depends from length of run out table)	3000 mm (10 ft)
Processable sheet metal (in Lockformer quality)	galvanized and black steel sheet
With coated dies	stainless steel (max. 0,6 mm / 24 ga) PVC coated mild steel aluminium and copper
Thickness	0,5 - 1,0 mm (26 to 20 ga)
Strip width	137 mm (5,4'')
Strip speed	4 - 50 m/min (13 to 162 ft/min)

- Smooth inner tube surface

- Excellent seam quality

- Cutting Device: Roll shears

TUBO - S

- Automatic counting system
- Automatic tube ejection
- Automatic length measuring of tubes
